Genesis

For the Perfect Finish

# Contents

- STAIR NOSINGS** - Performance, safety and style and some new innovative solutions for all floor surfaces
- FLEXIBLES** - Finishing profiles in P.V.C. for soft flooring applications
- ENTRANCE MATTING** - The complete range of matting and accessories to suit all aspects of installations
- TRANSITIONS, COVERS & RAMPS** - An extensive selection of profiles to solve those floor finishing problems
- EXPANSION JOINTS** - For all applications including structural joints and commercial grade covers
- EDGE PROTECTION** - Specifically designed for heavy traffic and commercial areas
- P.V.C. TRIM** - A huge range of quality P.V.C. finishing profiles perfect for ceramic tiles
- METAL TRIM & LISTELLO** - Aluminium and Stainless Steel profiles in many sizes and finishes
- TOOLS** - A comprehensive range of professional tools for any tiling task
- PPE** - Protection equipment for all industries to suit DIY and professionals
- BASIC TOOLS** - A focused range of tools providing a cost effective alternative
- SOFT FLOORING TOOLS** - A range of top quality focused tools for the soft flooring installer
- MARKETING** - Point of Sale, Display, Literature and Samples Systems helping to promote the Genesis range

## Nosing Insert Slip Resistance

Slip-resistance tests have been independently undertaken by Lucideon Ltd using the pendulum and inclined platform test.

### Inclined Platform Test DIN 51130:2010

	Operator 1 - Angle of Inclination	Operator 2 - Angle of Inclination
1	23.6°	22.3°
2	23.5°	21.0°
3	24.4°	22.7°

Average of Six Shod Results (Corrected): 22.9°

### Category: R11

The critical angle at which a test person reaches the limit of safe walking on an inclined plane is used as a measure of slip resistance.

### Pendulum Test BS 7976-2:2002

**PTV Average Dry Value: 66 PTV Average Wet Value: 54**

The energy absorbed by contact with the pre-set distance is read from a physical scale by a pointer that follows the overswing of the pendulum arm. 12 results are averaged to give the final pendulum number which is used to categorise the tile surface.

The UK slip resistance group recommends the following guidelines;

PTV	Slip Potential
0-24	High
25-35	Moderate
36+	Low

## LRV's – Clarification

Reflectance is the proportion of light that a surface reflects compared to the amount or volume of light that falls on the said surface. An LRV is a value given to a surface to identify the amount of light reflected. People with impaired vision can perceive light and dark, therefore LRV's are a suitable method to measure contrast between 2 different surfaces.

Note that dark, matt or textured surfaces absorb a large amount of light, therefore have low reflectance values, however a combination of one or all light, shiny or smooth surfaces reflect the majority of light and therefore have higher reflectance values.

In order to achieve a suitable contrast between different surfaces, ADM 2004 recommend at least a 30 point difference in the LRV's of the two contrasting surfaces.

## Genesis and Tredsafe® Stair Nosing Inserts Light Reflectance Values

Genesis Colour	LRV	RAL	Genesis Colour	LRV	RAL
01 White	79.9	9003	47 Yellow	55.7	1018
16 Black	4.5	9004	48 Cobalt Blue	9.2	5000
20 Brown	9.1	8014	52 Lime	30.4	6011
25 Beige	41.1	1001	109 Sky Blue	13.5	5015
27 Canvas	53.2	1013	113 Tangerine	N/A	2000
28 Green	6.3	6005	601 White	82.7	9003
30 Red	10.6	3031	616 Black	4.8	9004
43 Dolphin Grey	27.6	7042	643 Mid Grey	18.3	7000
44 Ice Grey	42.1	7001	647 Yellow	46.1	1012
46 Midnight Grey	12.8	7024			

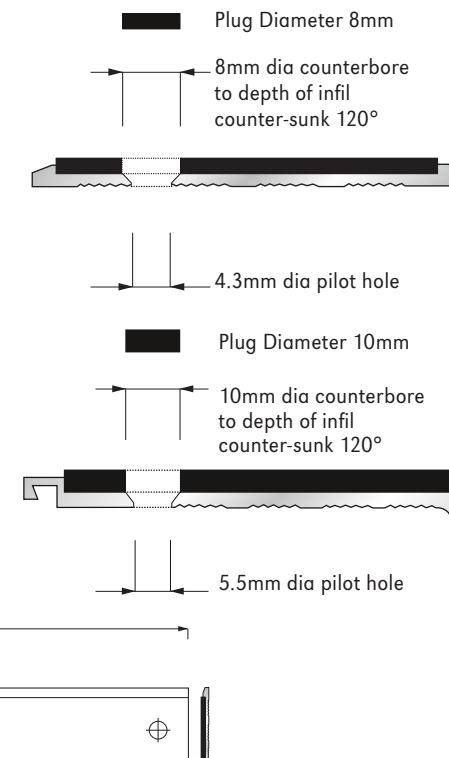

Please note the RAL numbers in the above table is a guide only. Genesis do not manufacture to RAL numbers and cannot guarantee an exact match as there are a number of variables within the manufacturing process.

## Drilling Instructions

### Drill using Genesis countersunk drill bit

Start 75mm from each end and set all holes equally as indicated for single and double channel.

Length	No. of Holes
600 - 699	2
700 - 1099	3
1100 - 1399	4
1400 - 1799	5
1800 - 2099	6
2100 - 2499	7
2500 - 2799	8
2800 - 3200	9

## Installation - Mechanical Fix

- 1** Prepare surface, it must be clean, smooth and free of debris.
- 2** Position the profile, check the fit and mark the drill holes.
- 3** Drill and Plug to suit the screw size.
- 4** Apply adhesive as per manufacturer's instructions.

- 5** Position onto step.
- 6** Mechanically fix.
- 7** Insert plug.
- 8** Remove protective film when applicable.

If fixing inserts separate follow steps 1 – 6, remove release paper from channel and position insert ends flush applying pressure towards the centre finishing with hand roller to ensure adhesion.

## Installation - Adhesive

- 1** Prepare surface, it must be clean, smooth and free of debris.
- 2** Apply 5mm bead to the underside of the profile, 2 lines for Single and 3 for double channel.
- 3** Position, press and slide to ensure full bond.
- 4** Allow min. 1 hour after fixing. It is the contractor's responsibility to ensure the bond is secure before opening the area.

Installer must follow individual manufacturers guidelines

## Templates/Curves

Aluminium stair casings can be made to fit most irregular shapes and curves. However each curved step must be treated individually and a separate template made for each using card, felt or paper. Follow these three simple steps as an easy guide to the perfect edge.

### Step 1

Place the card or felt on top of the curve that requires a template and draw a line underneath with a felt pen or marker (see Figure 1) following the edge of the curve to create a smooth line.

Figure 1

### Step 2

Cut the shape along the felt pen mark (Figure 2) and clearly indicate the top and front edge of the template.

Figure 2

### Step 3

Clearly mark on the template, the customer name and reference, the profile required, the colour insert required and finally whether your curve is required drilled or undrilled (Figure 3).

Figure 3

For assistance with any aspect of measuring or making templates please speak to Technical Services.

Lengths made to order. Minimum orders may apply

The range uses a unique carborinium composite insert that is extremely hard wearing and durable. It exceeds all health and safety requirements for wet and dry slip potential.

Each length is made to order with the insert composition applied into the channel to suit individual requirements.

## Definitions

In these Terms and Conditions the following expressions will have the following meanings unless inconsistent with the context:

“Buyer”	the person(s), firm or company whose order for the Goods is accepted by the Company
“Company”	Genesis Global Systems at Stokesley Business Park, Stokesley, North Yorkshire, TS9 5JZ
“Contract”	any contract between the Company and the Buyer for the sale and purchase of the Goods or supply of the Services formed in accordance with Condition 2
“Delivery Point”	the place where delivery of the Goods is agreed to take place
“Goods”	any Goods which the Company supplies to the Buyer (including any of them or any part of them)
“Terms and Conditions”	the standard terms and conditions of sale set out in this document together with any special terms agreed in writing between the Buyer and the Company

## Formation and Incorporation

The Contract will be upon these Terms and Conditions, to the exclusion of all other terms and conditions and all previous oral or written representations including any terms or conditions which the Buyer purports to apply under any purchase order, confirmation of order or similar document is referred to in the Contract.

Each order or acceptance of a quotation for Goods will be deemed to be an offer by the Buyer and to purchase Goods upon these Terms and Conditions. The Contract is formed when the Buyer receives confirmation that the order is accepted by the Company. No contract will come into existence until such confirmation has been given by the Company.

Quotations are subject to an acceptance period of 45 days from the date of quotation.

The Buyer must ensure that the terms of its order are complete and accurate.

Acceptance of delivery of the Goods will be deemed as conclusive evidence of the Buyer’s acceptance of these Terms and Conditions. The Buyer may not cancel the Contract. The Company may cancel the Contract at any time prior to delivery.

## Price and Payment

The price for the Goods will be the price set out in the Company’s published price list current at the date of delivery or as otherwise notified by the Company to the Buyer prior to the Contract being made. Orders are exclusive of any costs of carriage, packing, insurance and VAT unless otherwise agreed by the Company. A separate export price list may apply for Goods supplied for export from the United Kingdom. Where recommended selling prices are listed these should be treated as a guide.

Where an order is received for quantities less than those quoted or where delivery is required in instalments smaller than those specified in the quotation, then prices may be subject to increase.

The Company may invoice the Buyer for the Goods on or at any time after dispatch. Subject to clause 3.3, payment of the price and VAT shall be due within 30 days of the invoice. Time for payment will be of the essence.

The Company may accept payment on a pro-forma basis providing this arrangement is agreed in writing and signed by a director of the Company.

No payment will be deemed to have been received until the Company has received cleared funds.

All payments to be made by the Buyer under the Contract will be made in full without any set-off, restriction or condition and without any deduction for or on account of any counterclaim. No disputes that may arise under the Contract or delays beyond the reasonable control of the Company shall constitute a reason for interference with prompt payment in full by the Buyer.

If any sum payable under the Contract is not paid when due then, without prejudice to the Company’s other rights under the Contract, the sum will bear interest from the due date until payment is made in full, both before and after any judgment, at 5 per cent per annum over the Bank of England base rate from time to time and the Company will be entitled to suspend deliveries of the Goods until the outstanding sum has been received.

The Company reserves the right to recoup any sum, resulting from costs incurred legal proceedings to recover the sum payable under the Contract.

Any invoice queries must be communicated to the Company within 10 working days of receipt of the invoice by the Buyer.

## Instalments

The Company may deliver the Goods by separate instalments. Each instalment will be a separate Contract and no cancellation or termination of any one Contract relating to an instalment will entitle the Buyer to repudiate or cancel any other Contract or instalment unless otherwise notified by the Company. Each separate instalment will be invoiced and paid for in accordance with the provisions of the Contract.

## Delivery

The Company will use reasonable endeavours to deliver each of the Buyer’s orders for the Goods in accordance with the delivery estimate provided by the Company at the Delivery Point, but the time of delivery will not be of the essence. If, despite those endeavours, the Company is unable for any reason to fulfil any delivery on a specified date, the Company will be deemed not to be in breach of Contract, nor (for the avoidance of doubt) will the Company have any liability to the Buyer for direct, indirect or consequential loss howsoever caused (including as a result of negligence) by any delay or failure in delivery.

Where the Goods are handed to a carrier for carriage to the Buyer or to UK port for export, any such carrier shall be deemed to be an agent of the Company and not the Buyer for the purposes of 43, 44 and 45 of the Sale of Goods Act 1979 (as amended).

No liability will attach to the Company for non-delivery, loss or damage to Goods prior to delivery unless claims to that effect are notified in writing by the Buyer to the Company within four days of delivery and where carriers not of the Company have been used for delivery a copy is delivered to said carrier.

Where delivery is made by a carrier to the Buyer the Buyer is responsible for counting as received, complete or otherwise, the number of outer cartons of Goods documented by the carrier as being delivered. Any shortage should be notified to the Company without delay.

Subject to Condition 5.1, the Company will require the receipt of an order from a Buyer prior to 12.30pm to deliver Goods the following day in the United Kingdom (excluding Northern Ireland).

Minimum order value £175.00 free UK mainland delivery.

## Risk/Title of Goods

Risk of damage to or loss of the Goods will pass to the Buyer in accordance with Condition 5.

Ownership of the Goods will not pass to the Buyer until the Company has received in full all sums due to it in respect of the Goods.

Until ownership of the Goods has passed to the Buyer, the Buyer must:

- hold the Goods on a fiduciary basis on behalf of the Company;
- store the Goods (at no cost to the Company) separately from all other Goods of the Buyer or any 3rd party in such a way they remain readily identifiable;
- not destroy, deface, or obscure any identifying mark or packaging on or relating to the Goods; and
- maintain the Goods in a satisfactory condition insured on the Company’s behalf for their full price against all risks to the reasonable satisfaction of the Company, and will whenever requested by the Company produce a copy of the policy of insurance.

If the Buyer sells or disposes of the Goods to a third party before the sum due to the Company is paid in full then any proceeds resulting there from shall belong to the Company to the extent of the sums owing by the Buyer.

Where the Company (or its appointed carrier) delivers the Goods, the risk shall pass to the Buyer upon delivery. In all other cases, the risk shall pass to the Buyer when the Goods leave the Company’s premises.

The Buyer’s right to possession of the Goods will terminate immediately if any of the circumstances set out in Condition 9 occur.

If payment is overdue in whole or in part the Company may (without prejudice to any of its other rights) recover or resell the Goods or any part thereof and may enter upon the Buyer’s premises by its servants or agents for the purpose.

Nothing in this clause shall confer any right upon the Buyer to return the Goods sold hereunder or to refuse or delay payment therefore.

## Liability of Company

The Company shall not be liable for any costs, claims, damages or expenses arising out of any tortious act or omission or breach of contract or statutory duty calculated by reference to profits, income, production accruals, or by reference to accrual of such costs, claims, damages or expenses on a time basis.

The liability of the Company to the Buyer for any loss of whatsoever nature and howsoever caused shall be limited to and shall in no circumstances exceed the price of the Goods

In no circumstances shall the Company be liable for any cost claim damage or expense resulting from any failure to use the Goods other than for the purpose for which they are supplied by the Company or resulting from any failure to follow any instructions issued by the Company in respect of the Goods.

Each of the provisions of these Conditions of Sale (including each provision providing for the limitation or exclusion of liability) shall be deemed to be fully severable so that if any provision is found to be void in law, whether because it is found to be unreasonable or otherwise, the remainder of the provisions shall continue in full force.

## Intellectual property

No right or licence is granted to the Buyer in respect of the Intellectual Property Rights of the Company, except the right to use, or re-sell the Goods in the Buyer’s ordinary course of business.

The Buyer will not without the Company’s prior consent allow the Company’s marks or words applied to the Goods to be obliterated, obscured or omitted nor will he add any additional marks or words.

Unless paid for in full, any display stand provided by the Company shall remain the property of the Company and will be given on loan or hire to the Buyer to enable effective merchandising of the Goods and it is the Buyer’s responsibility that only the Goods can be displayed or placed on the display stand in any event.

The Buyer will not, without written consent of the Company, use, give away or loan any photographs or documents of confidential records provided to the Buyer by the Company.

## Insolvency or Default of Buyer

If the Buyer shall make default in, or commit any breach of, the Contract or of any other of his obligation to the Company or if any distress or execution shall be levied upon the Buyer’s properly or assets or if the Buyer shall make an offer to make any arrangement for composition with creditors or commit any act of bankruptcy or if any petition or receiving order in bankruptcy shall be presented or made against him or if the Buyer is a Limited Company and any resolution or petition to wind up such company’s business (other than for the purpose of amalgamation or reconstruction) shall be passed or presented or if a receiver of such company’s undertaking property or assets or any part thereof shall be appointed, the Company shall have the right forthwith to determine any contract then subsisting and upon written notice of such determination being posted to the Buyer’s last known address any subsisting Contract shall be deemed to have been determined without prejudice to any claim or right the Company may otherwise make or exercise.

## Export Terms

Where goods are supplied for export from the United Kingdom the following clauses shall (subject to any terms agreed in writing between the Company and the Buyer) apply notwithstanding any other provisions of these Conditions:

- the Buyer shall be responsible for complying with any legislation or regulations governing the importation of the Goods into the country of destination and for the payment of duties on them
- unless otherwise agreed in writing between the Company and the Buyer from the time of dispatch of the Goods from the Company’s premises the Goods shall be at risk of the Buyer and the Company shall be under no obligation to give notice under Section 32(3) of the Sale of Goods Act 1979 (as amended).

## Force Majeure

The Company will not be liable to the Buyer for any failure or delay or for the consequence of any failure or delay in performance of the Contract, if it due to or beyond the reasonable control of the Company including, without limitation, acts of God, war, industrial disputes, protests, fire, tempest, explosion, an act of terrorism and national emergencies and the Company will be entitled to a reasonable extension of time for performing such obligations in such circumstances.

## Legal

Any dispute or difference between the parties arising out of the Contract shall first be referred to mediation in accordance with the procedure of IDR Europe Limited and if the parties cannot agree on a mediator either of them may apply to IDR Europe Limited to appoint a mediator. If the parties fail to reach agreement on the dispute within 60 days of the appointment of the mediator the dispute may be referred to the Courts of England and Wales.

The Contract shall in all respects be governed by English Law and shall be deemed to have been made in England and the Buyer and the Company agree (subject to the provisions of clause 34 above) to submit to the exclusive jurisdiction of the English Courts.

## WEEE Collections Policy

The B23 end user is responsible for all the liabilities regarding the environmentally sound disposal of the EEE when it becomes WEEE, the compliance statements are on the product packaging.

The producer has paid no charge to its PCS (producer compliance scheme) for its eventual recovery. However the PCS’s disposal contractor is able to provide a cost effective and environmentally sound disposal of all 13 categories of WEEE.
